

Ramya J

UX Designer | User Research, Interaction Design & Prototyping

+91 8073164257 95ramyaj@gmail.com ramyajayaram.com Bengaluru, India

SUMMARY

Experienced UX Designer with 6+ years of experience crafting accessible, workflow-driven experiences for Enterprise and SaaS. I bridge the gap between complex business requirements and seamless user interactions. From research to high-fidelity design, I lead initiatives that enhance product usability and drive cross-functional alignment, ensuring that every design choice serves both the user and the bottom line.

WORK EXPERIENCE

Opentext Pvt Ltd

Apr 2024 - Present

UX Designer

Key Responsibilities:

- Design Standardization: Established and standardized User-Centered Design frameworks, increasing cross-platform design consistency by 30% and reducing design debt across the organization.
- Strategic Leadership: Spearheaded the end-to-end UX life-cycle for six plus enterprise product, achieving a 20-25% acceleration in design delivery through optimized hand-off processes.
- Cross-Functional Alignment: Partnered with Product Management, Engineering, and stakeholders to translate high-level business objectives into technical requirements and intuitive user experiences.
- Information Architecture: Architected scalable workflows and unified IA for complex SaaS environments, significantly increasing user efficiency and product satisfaction
- UX Auditing & Optimization: Executed comprehensive heuristic evaluations across the product portfolio, identifying and resolving critical usability friction points to streamline the user journey.

Projects

Document Accessibility

- Audit & Optimization: Executed a comprehensive heuristic evaluation to identify and mitigate 20+ critical usability issues.
- Friction Reduction: Redesigned the verification flow using guided checkpoints and progress markers, resulting in a 40% reduction in user friction and drop-off rates.

Software License Download (SLD)

- Platform Unification: Strategically consolidated three legacy platforms (Cloud, On-premise, and My Support) into a unified Information Architecture (IA).
- Efficiency Gains: Reduced navigation complexity by 35% and significantly enhanced cross-product discoverability by streamlining redundant workflows.

Trading Grid Supplier Hub

- Complex Workflow Design: Engineered dual-task flows for distinct enterprise client models, successfully navigating complex negotiation logic and workflow dependencies.
- Partner Enablement: Developed end-to-end user journeys and wireframes that optimized operational efficiency for both digital and non-digital trading partners.

Process Automation

- System Modernization: Led the wireframing and visual design for a major product reskin, transforming fragmented, manual workflows into a cohesive automated platform.
- Consistency at Scale: Improved usability and visual consistency by aligning the automation interface with modern design system standards.

PREVIOUS WORK EXPERIENCE

Appiness Interactive Pvt Ltd

Jun 2021 - Apr 2024

UI/UX Designer

Key Responsibilities:

- End-to-End Design Leadership: Directed the full UX lifecycle for complex web and mobile ecosystems, delivering high-fidelity design and interactive prototypes that reduced redesign cycles by 20–30%.
- Cross-Functional Strategy: Partnered closely with Product Management and Engineering to synchronize user-centric design strategies with core business objectives and technical feasibility across diverse client portfolios.

Projects

Manipal eCommerce

- Created end-to-end user flows and high-fidelity interface design for a large-scale healthcare e-commerce platform.
- Optimized the patient purchase journey and checkout experience, leading to a 25% increase in task completion efficiency.

Comviva PayPlus

- Directed the multi-channel UX strategy for a global payment gateway, focusing on merchant onboarding and transaction flow.
- Delivered high-fidelity prototypes that streamlined complex payment workflows, reducing user friction by 35% and improving merchant adoption rates.

Vtiger Systems India Pvt Ltd

Jun 2019 - Jun 2021

UI/UX Designer

Key Responsibilities:

- Led end-to-end design for web and mobile products, yielding a 20–25% improvement in usability and workflow efficiency.
- Reduced development rework by 15% by delivering wireframes, prototypes, and UI specifications for major product transformations.
- Collaborated across departments (Product, Engineering, Marketing) to align user needs with business goals, ensuring high-quality, user-centered feature releases.

Vtiger Systems India Pvt Ltd

Oct 2018 - Apr 2019
